

Vice Principal's Note

Dear Inspire4 Community:

This year has certainly been one for the ages. Despite the many challenges that were put before our community, state, and across the nation, we found a way to overcome many of those challenges by providing an opportunity to educate nearly 700 students in the Windsor/Severance area.

It was certainly no easy task opening a brand new, fully online school in just 7 short weeks. While we certainly did not have everything figured out when our virtual doors opened, you were patient, understanding, and forgiving. Furthermore, you were willing to become a true partner in the learning process and take on educational responsibilities like never before.

Because of that you have developed incredible relationships and have learned invaluable skills. I'm so proud of the growth and contributions of such an amazing and diverse group. You have embraced your opportunities and truly highlight the inspiration within Inspire4. So to all of the Inspire4 students, families, teachers, and staff...thank you! I will never forget you!

Best Regards,

Mr. Urich
Assistant Principal
Inspire4 K-12 Online School
